- [Log Into Amazon Account](#)
- [Customize Output Settings](#)
- [Search for Amazon Video](#)
- [Select Advanced Download Settings](#)
- [Download Amazon Video](#)
- [Check Download History](#)

### Step 1: Log into Amazon Account

Run SameMovie Amazon Video Downloader firstly, and then you will see its main interface. Click to choose **“Sign In”**. A window will pop-up asking you to log in with Amazon account.

## Step 2: Customize Output Settings

Click the “Setting” icon on the upper right corner to customize the output settings. In the “Download Settings” tab, you can choose the video format (MP4 or MKV), video quality, and the language of audio track and subtitle, the output path, and more. Three subtitles types are available for you to choose from: internal subtitles, external subtitles, and hardcode subtitles.

- Internal subtitles: can save subtitles in multiple languages.
- External subtitles: can save subtitles as independent files, SRT file, so that you can edit them.
- Hardcode subtitles: can be permanently embedded into the video and subtitles are always available.

In the “Advanced” tab, it is available to choose H.265 and H.264 video codec. After selecting H.265, you can save videos with smaller files, when downloading the same definition. You can also enable the hardware acceleration, when available, to improve download performance by using the graphics card.

## Step 3: Search for Amazon Video

If you have a video you want to download, you can enter the name or keywords in the search box to quickly find it. If not, browse the built-in library to find what you are interested in.

## Step 4: Select Advanced Download Settings

Choose the desired video and click on it to open its detail page. Then, the arrow icon in the lower right corner will become available (blue). When downloading TV shows, you can select the episodes and season first.

Click the **“Advanced Download”** button in the lower left corner to select specific video quality with different bitrate, as well as the language of audio tracks and subtitles. For movies, simply click on the Download icon to activate the advanced settings window.

## Step 5: Download Amazon Video

Click the **“Download”** button to start downloading videos, and the program will download the selected videos to the computer one by one.

## Step 6: Check Download History

After downloading, you can check what you have downloaded by clicking the **“Library”** tab. Here you can find therecord of all video files.
