Tutorials

Step 1: Log into Netflix Account

Run SameMovie Netflix Video Downloader firstly, then click the **"Sign In"** button in the upper right corner of the interface to open the login window.
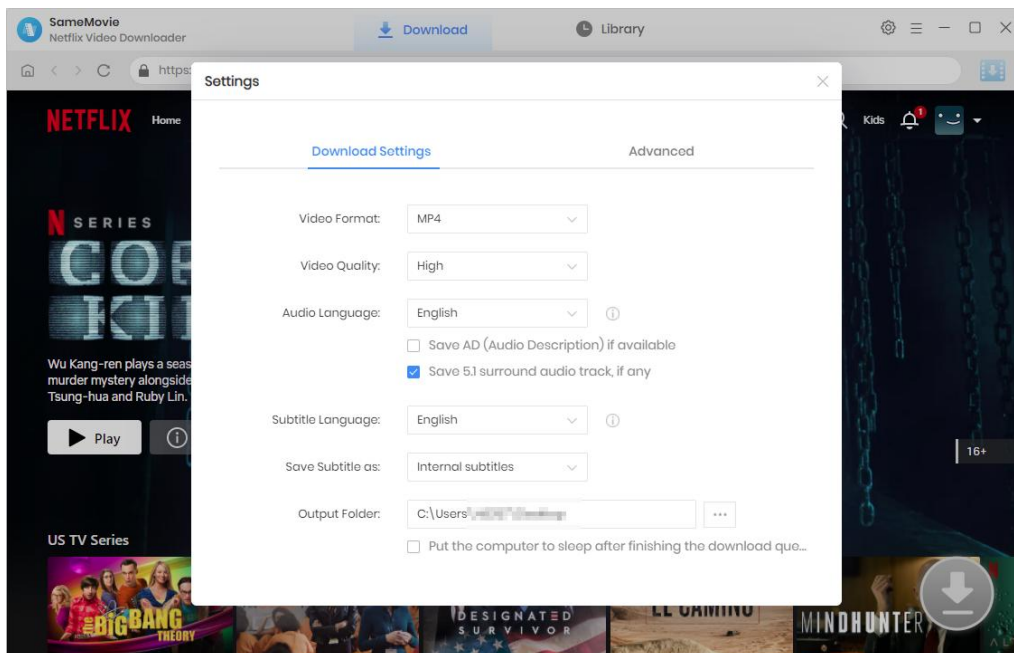

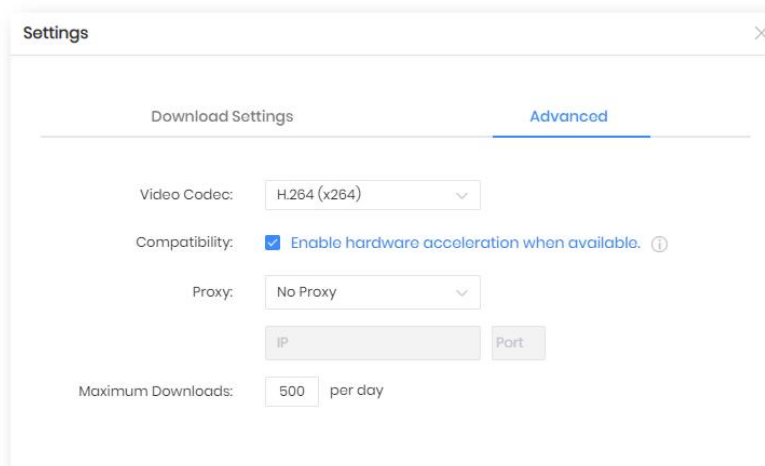

Step 2: Customize Output Settings

Click the **"Setting"** icon in the upper right corner. You can customize the video output format (MP4/MKV), video quality, output path, and the language of audio tracks and subtitles, etc. Plus, it provides three subtitle modes for you to save: Internal, External, and Hardcode subtitles. You can freely set the output path in which the video files are saved on your computer, or external USB Drive and SD Card, etc.

- Internal subtitles: can save subtitles in multiple languages.

- External subtitles: can save subtitles as independent files, SRT file, so that you can edit them.

- Hardcode subtitles: can be permanently embedded into the video and subtitles are always available.

In the **Advanced** tab, there are two video codec options available: H.264 and H.265. If you want to save videos in the same quality with smaller file sizes, choose H.265. You can also check "Enable hardware acceleration when available", which will improve download performance by using the graphics card.
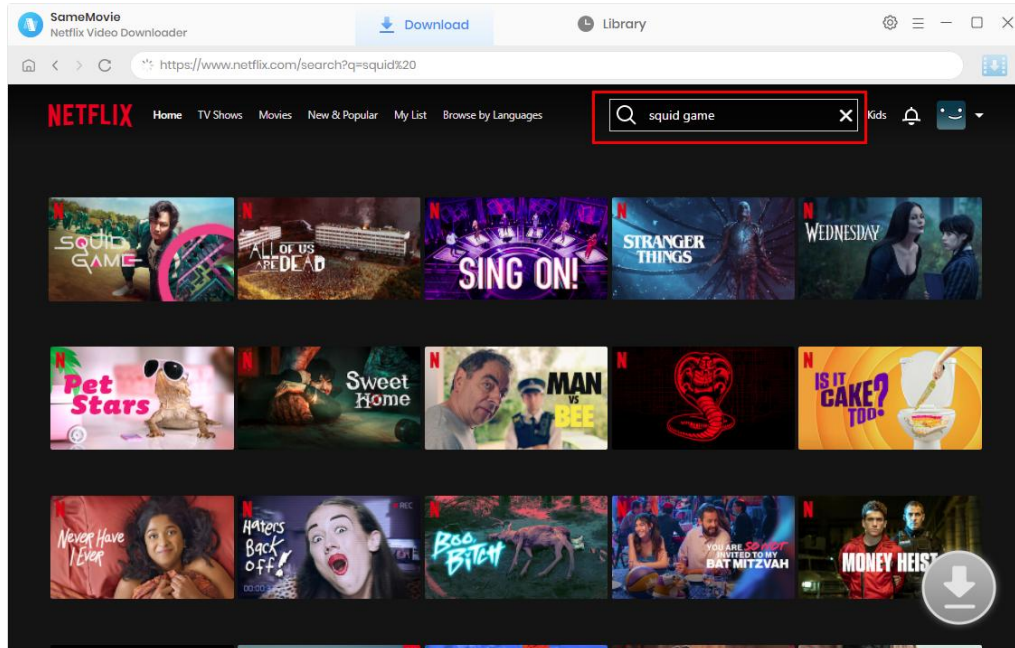

Step 3: Search for Netflix Video

You can use SameMovie's **built-in browser** to locate the video you want to download in the Netflix library.

Or find the desired video by entering the **name** in the search bar.
