Tutorials

Step 1: Log into Paramount Plus Account

Run SameMovie ParamountPlus Downloader firstly. Follow the steps prompted by the interface to complete your account login.
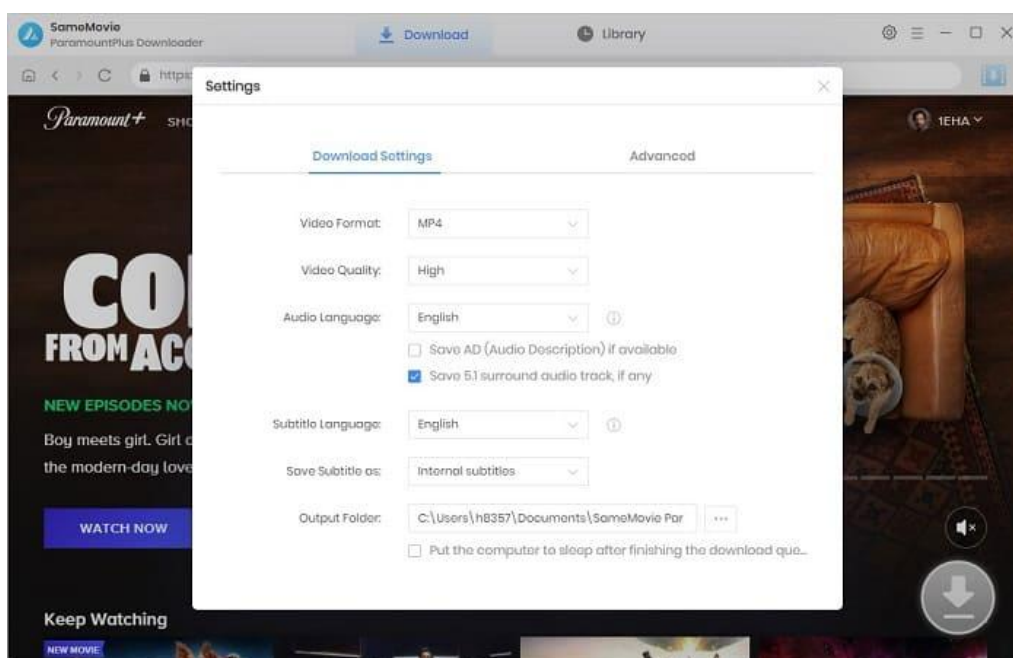

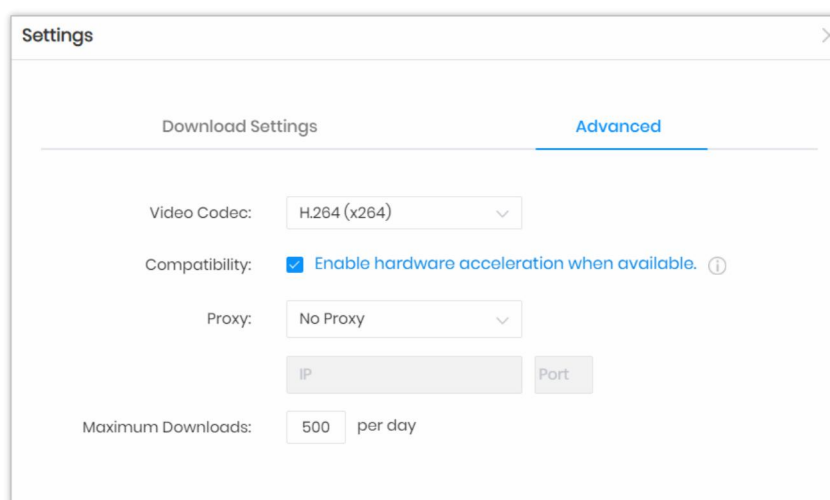

Step 2: Customize Output Settings

To select the video's output parameters, click the "**Setting**" icon. You can choose the video format (MP4 or MKV), video quality, the language of audio track and subtitle, the output path, and more. There are three different types of subtitles available on SameMovie:

- Internal subtitles: can save subtitles in multiple languages.

- External subtitles: can save subtitles as independent files, SRT file, so that you can edit them.

- Hardcode subtitles: can be permanently embedded into the video and subtitles are always available.

In the "Advanced" tab, it is available to choose H.265 and H.264 video codec. When selecting H.265, you can save the video with smaller files when downloading the same definition video. You can also enable hardware acceleration, if available, to improve download performance by using the graphics card.
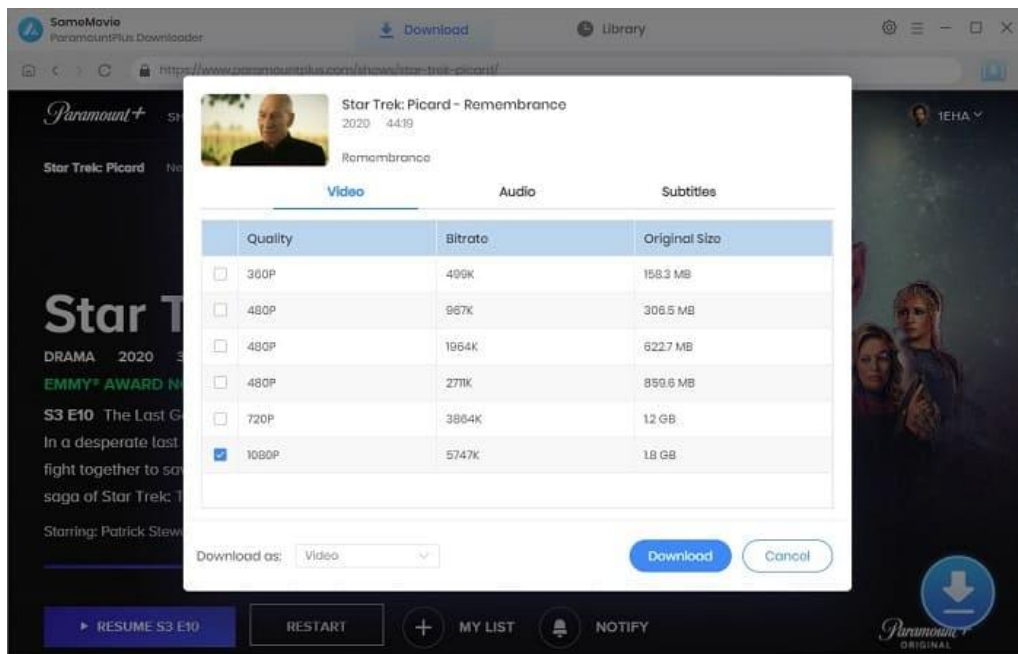

Step 3: Search for Paramount Plus Video

Enter a video name or keyword in the URL bar or in the magnifying glass button for an exact search. You can also browse the built-in library directly to find them.

Step 4: Select Advanced Download Setting

Click the arrow icon after locating the desired video. Then, a pop-up window will appear, letting you select the seasons and episodes. SameMovie allows you to select specific video quality with different bit rates, audio tracks, and subtitles in the **"Advanced Download"** window.
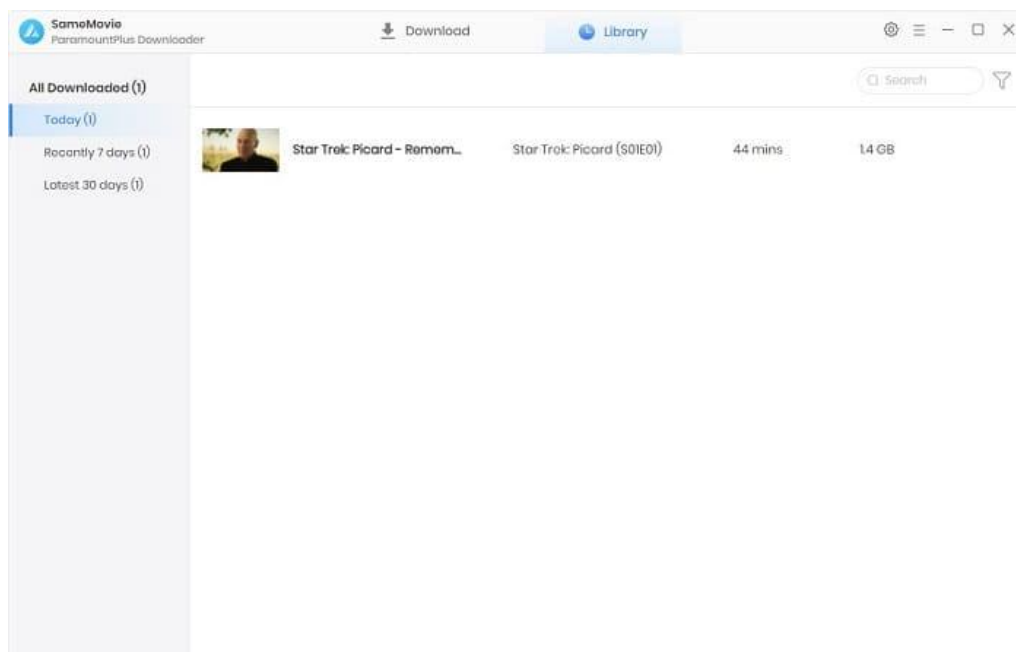

Step 5: Download Paramount Plus Video

Click the **"Download"** button to start downloading videos, and the program will download the selected videos to your computer one by one.

Step 6: Check Download History

After downloading, you can check what you have downloaded by clicking the **"Library"** tab. Here you can find therecord of all video files.
